**Information Collection Request Title:** Evaluation of the National Partnership for Action to End Health Disparities

**Abstract:** Office of Minority Health (OMH) in the Office of the Assistant Secretary for Health (OASH), Office of the Secretary (OS) is requesting approval for an extension from the Office of Management and Budget (OMB) for a previously approved data collection activity for the Evaluation of the National Partnership for Action to End Health Disparities (NPA). The NPA was officially launched in April 2011 to mobilize a nationwide, comprehensive, community-driven, and sustained approach to combating health disparities and to move the nation toward achieving health equity. Using an approach that vests those at the front line with the responsibility of identifying and helping to shape core actions, new approaches and new partnerships are being established to help close the health gap in the United States.

OMH proposes to continue to conduct the evaluation of the NPA. The evaluation's goal is to determine the extent to which the NPA has contributed to the elimination of health disparities and attainment of health equity in our nation. The evaluation will accomplish this goal by addressing the following questions: 1) To what extent has a multi-level structure been established to support actions that will contribute to the elimination of health disparities?; 2) How are leaders in the public, private, nonprofit, and community sectors engaged in collaborative, efficient, and equitable working partnerships to eliminate health disparities?; 3) How many and what types of identifiable actions are

being implemented at the community, state, tribal, regional, and national levels that relate directly to the five goals and 20 strategies in the *National Stakeholder Strategy (NSS)*; 4)

How much is the work to end health disparities integrated into stakeholder strategies and mainstream systems (e.g., health care quality improvement, public and community health improvement, economic and community planning and development) in and beyond the health sector? 5) What are the promising practices for implementing actions that contribute to ending health disparities?

**Burden Statement:** Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions, to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information, to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information, and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.
